Will Arrest Them.

The announced intention of Major Sylvester, Superintendent of Police, to put an end to all unnecessary noises at night by detailing bicycle officers to patrol the residence sections after dark, aroused much comment, but not so much as the activity which the department is now manifesting in the matter of surveillance of that section of the city which is not supposed to exist, and which is not visited save when the shades of evening have descended.

Major Sylvester has directed that all men found after dirk on the streets of that quarter, generally known as the Division, shall be taken to the station house. Five arrests were made on Saturday and Sunday nights. Several of the men arrested asserted that they were on their way to or from their places of business, and raised a bitter how against being taken into custody.

As a matter of fact, this quarter of the city lies between the Avegue and the Mall, and employes of the National Museum, the Fish Commission, the Smithsonian Institution, the Department of Agriculture, the Bureau of Engraving and Printing and probably other government bureaus are compelled to pass through the Division, going to and from their work. Work is supposed to end at 4:30 o'clock, but there are employes who are required to stay on duty longer, and it often happens that emergencies keep them at their desk until 9 or 10 o'clock in the verning. But they are liable to arrest unless in going home, if they reside in the Northwest section, they do not make a wide detour.

Two Ladies and Two Men Have Narrow Escape from Drowning at Ocean View.

[Special to The Times-Dispatch.]

NORFOLK, VA., July 27.—Four persons, all of Richmond, narrowly escaped death by drowning late yosterday afternoon at Ocean View, as a result of going out too far, the ladies becoming exhausted, and the accompanying men giving out before they could reach shore. Life-Saver Leary, with his boat, succeeded in getting to the scene in time, resouling the women, and the men clinging to the side of the boat until shallow water was reached.

The ladies were Mrs. Bernice Coleman and Miss Janle Manning, and the man, Messrs, R. M. Beldwin and J. H. Kelly, all of Richmond. Fortunately, all escaped any harm, beyond extreme exhaustion.

The life-saver had just warned the bathers, staying away from the ropes, of a dangerous hole up the beach from the bathhouse, when the two young women floundered into it, and becoming excited, hampered the gentlemen when they tried to get them in shallow water, Mr, Leary had noticed the party near the dangerous hole and was pulling for the spot when the cries for help arcse, with the screams of the women. He was quickly on the scene.

for H. B. Register,

[Special to The Times-Dispatch.]

RALEIGH, N. C., July 27.—Insisting that the circumstantial evidence was most conclusive and that nothing has developed since the trial to weaken it, and that there should be no interference with the sentence of the Columbus County Court, J. D. Lewis, of Whiteville, appeared before Governor Glenn this afternoon representing the interests in his section opposed to the pardon of H. B. Register, now serving a life sentence in the State prison for implication in the murder of Jim Staley and Jesse Sowles.

The aged wife- and three daughters of Register were present in the executive office with C. M. Bernard, who defended the Registers in the trial below, some six years ago, to plead for the pardon, on the ground that there is now grave doubt of the guit of either H. B. Register or his son, Jabel, who was hanged for his part in the crime, the contention of the prosecution being that the old man induced Jabel and Cross Edmondson, a boy raised by the Registers, to go to the home of Staley and Sowles, murder then, and burn the house for purposes of robbery. It was Edmondson who tusped State's evidence against the
